

IES DR. LLUÍS SIMARRO LACABRA  
ULRICHSGYMNASIUM - NORDEN

NEWSLETTER

## In a nutshell

Through the arts, we will try to improve our students' academic performance as well as their possibility to participate in an Erasmus + project.

Focusing on STEAM methodology many subjects will be involved, working together around four important festivities in our countries.

## CLIL Staff training

## NEWS

Last 9th October 2021, Rafael Climent, Laura Santamargarita and Jorge García, teachers from IES Doctor Lluís Simarro Lacabra (Xàtiva) flew to Germany in order to carry out some teacher training in Ulrichsgymnasium (Norden). The main purpose was the creation of different learning scenarios to put them into practice with our students, among other aspects.

## Long-term mobilities

Two students (Àngels Montell and Laia Rubio) came with us for their long-term mobility after having been provided with some pre-departure training. Both students are living a great experience there, which will have an impact on their future as this will become very positive for their personal and academic growth. They are having the same school routine as the rest of students have since they are part of ordinary groups.
